

# CONGESTION SURCHARGE FLOATER

Valid as of 01.01.2022

The zones white (no congestion), light (mild congestion), medium (congestion) and dark (heavy congestion) are assigned per Post Code, based on the congestion map published annually by the FEDRO (Federal Roads Office)<sup>1</sup>.

The zones are valid for the current calendar year, the congestion level and the congestion zone matrix is adjusted based on the monthly measured congestion volume.

**Congestion Zone Matrix**

From / To		Zone 1	Zone 2	Zone 3	
		0.00%	5.00%	5.50%	6.00%
Zone 1		5.00%	5.50%	6.00%	6.50%
Zone 2		5.50%	6.00%	6.50%	7.00%
Zone 3		6.00%	6.50%	7.00%	7.50%

## Calculation of congestion surcharge

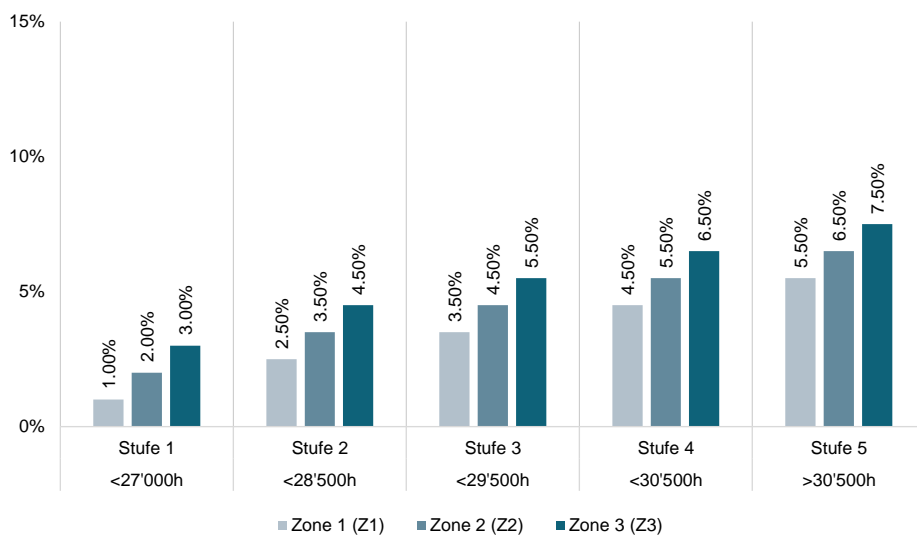

The calculation of the congestion surcharge is based on the monthly congestion hours on the Swiss national roads, published by Viasuisse AG<sup>2</sup>. The monthly congestion hours are currently provisional, the remaining months will be updated monthly and might have an impact on the congestion level. The congestion level results from the sum of the congestion hours of the last 12 months.

The congestion surcharge is applied to the net freight price according to the congestion zone matrix.

Months	Congestion hours	
	per month	last 12 months
12.2020	1'223h	30'534h
01.2021	903h	
02.2021	1'015h	
03.2021	1'625h	
04.2021	1'680h	
05.2021	2'320h	
06.2021	2'860h	
07.2021	3'632h	
08.2021	3'742h	
09.2021	4'460h	
10.2021	3'844h	
11.2021	3'229h	
<b>Valid as of: 01.2022</b>		<b>Level 5*</b>

\* provisional
